PROFESSIONAL SUMMARY

Computer Science Engineering graduate with hands-on experience developing full-stack applications using C#, .NET, ASP.NET Core, Java, React.js, and SQL databases. Experienced in REST API integration, database operations, debugging, and application testing through internship and academic projects. Strong foundation in object-oriented programming, software development lifecycle, and problem-solving, with an interest in building reliable and maintainable software solutions. Seeking a Software Engineer, Software Developer, or related entry-level role to contribute to software development and continuous improvement.

SKILLS

- **Programming Languages:** C#, Java, JavaScript, Python, SQL, HTML, CSS, XAML.
- **Frameworks & Libraries:** ASP.NET Core, React.js, Spring Boot, Spring Data JPA, Hibernate, WPF.
- **Technologies:** RESTful APIs, AI-Integrated Development, NLP, LLMs, CI/CD Concepts.
- **Databases:** Microsoft SQL Server, PostgreSQL, SQLite, LiteDB, H2 Database.
- **Tools & Platforms:** Git, GitHub, Visual Studio, Microsoft Azure, Postman.
- **Core Concepts & Practices:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), SDLC, Agile, MVC, REST API Integration, JWT Authentication, Entity Framework, Testing, Debugging, Troubleshooting, Version Control.

CERTIFICATION

- Introduction to SQL Certification – Simple Learn.
- JavaScript Programming Certification – Simple Learn.
- Java Programming Certification – Udemy.
- C# Programming Certification – Udemy.

KEY ACHIEVEMENTS

- Developed Six full-stack applications using C#, ASP.NET Core, React.js, Java, and SQL databases, working with REST APIs, frontend-backend integration, and database operations
- Built an AI-powered Story Generation System using C#, .NET, WPF, and LiteDB, featuring modular novel, chapter, and character management
- Collaborated with team members to develop an NLP-based Anonymous Case Complaint System using Python, MySQL, frontend technologies, and DistilBERT for automated text classification

PROFESSIONAL EXPERIENCE

Full Stack Development Intern — AKHILSOFT SOLUTIONS | Jun 2025 – Jul 2025

- Developed and integrated full-stack application modules using React.js, C#, ASP.NET Core, and SQL Server, implementing REST APIs to support application workflows.
- Integrated frontend interfaces with backend services and SQL Server databases to support reliable data exchange and database operations.
- Tested and debugged frontend, backend, and database workflows; troubleshot application issues to improve application stability and data consistency.

PROJECTS

Full Stack Photo Share Platform

- Developed a full-stack photo-sharing platform using React.js, Tailwind CSS, C#, ASP.NET Core Web API, and PostgreSQL, implementing authentication, photo uploads, event management, and team assignments.
- Integrated frontend components with backend APIs and database services, and deployed the application using Vercel, Render, and Supabase.

Full Stack Hotel Management System

- Developed a hotel management application using C#, ASP.NET Core Web API, SQL Server, HTML, CSS, and JavaScript, with database-driven modules for hotel operations.
- Integrated frontend and backend components through REST APIs and implemented booking workflows, with application testing and debugging.

Full Stack E-Commerce Website

- Built a full-stack e-commerce application using Java, Spring Boot, Spring Data JPA, Hibernate, React.js, and H2 Database.
- Implemented CRUD operations and REST API integration between frontend and backend components, testing application workflows to improve functionality and data consistency.

AI-Powered Novel Generation System

- Developed an AI-powered story generation application using C#, .NET, WPF, XAML, LiteDB, OpenAI integration, and prompt engineering to generate context-aware story content.
- Implemented modular novel, chapter, and character management features with local data persistence and Git/GitHub version control.

EDUCATION

- **Bachelor of Engineering (B.E.) – Computer Science**
  PSNA College of Engineering and Technology | November 2022 – May 2026 | Dindigul, Tamil Nadu
- **Higher Secondary Certificate**
  SHRI RAMANA VIKASS HR. SEC. SCHOOL **|** July 2021 – May 2022 | Cholapuram – Sivagangai
- **Secondary School Leaving Certificate**
  VELAMMAL MATRIC. HR. SEC. SCHOOL **|** July 2019 – March 2020 | Thirupuvanam – Sivagangai

CORE COMPETENCIES

- Full-Stack Software Development
- Java and .NET Application Development
- Backend Development & RESTful API Integration
- Database Design & Management
- Application Testing, Debugging & Troubleshooting
- AI-Integrated Application Development
- Software Design & Object-Oriented Programming
- Agile Methodologies & Software Development Lifecycle
- Analytical Thinking, Collaboration & Problem-Solving
