PROFESSIONAL SUMMARY

Computer Science Engineering graduate experienced in C#, ASP.NET Core, .NET, React.js, SQL Server, JavaScript, HTML, CSS, REST API Development and Entity Framework. Strong foundation in MVC, OOP, Database Design, Git/GitHub, Agile SDLC and Full Stack Development, seeking Software Engineer, Full Stack and Backend Developer opportunities.

SKILLS

- **Languages:** C#, Java, JavaScript, SQL, Python, HTML, CSS, XML.
- **Frameworks & Libraries:** ASP.NET, React.js, Spring Boot, Pandas, NumPy.
- **Technologies:** REST APIs, CI/CD, AI/ML, NLP.
- **Databases:** MS SQL Server, LiteDB.
- **Tools & Platforms:** Git, GitHub, Visual Studio, Azure Cloud.
- **Concepts:** OOP, DSA, SDLC, MVC Architecture, Debugging, Deployment, API Integration, JWT Authentication, Entity Framework, Version Control, Clean Code Practices.

CERTIFICATION

- ASP.NET Certification – Udemy
- SQL Certification – Udemy
- Python – Udemy
- JavaScript – Udemy
- C# Certification – Udemy

PROFESSIONAL EXPERIENCE

Full Stack Development Intern — AKHILSOFT SOLUTION

- Developed full stack web modules using React.js, C#.NET, and MS SQL Server in an Agile environment.
- Improved application stability by debugging and troubleshooting software issues during the SDLC process.
- Integrated frontend and backend functionality through REST APIs and SQL Server database connectivity.

PROJECTS

Full Stack Hotel Management System

- Built a responsive full stack hotel management application using C#.NET, SQL Server, HTML, CSS, and JavaScript.
- Implemented authentication, booking, and payment tracking features through REST APIs and database-driven modules.
- Managed frontend and backend integration to improve user experience and centralized hotel operations.

Full Stack Wedding Hall Management System

- Designed 10+ Windows-based booking and payment management modules using C#.NET, XML, and SQL Server.
- Enhanced CRUD operations and database handling features using OOP concepts and structured validation techniques.

- Optimized application maintainability and debugging processes through clean code and modular architecture.

AI-Powered Novel Generation System

- Engineered an AI-powered story generation system using NLP concepts, prompt engineering, and REST API integration.
- Implemented scalable backend workflows and reusable modules to support dynamic content generation features.
- Managed version control and project collaboration using Git/GitHub and structured development workflows.

EDUCATION

- **Bachelor of Engineering (B.E.) – Computer Science**
PSNA College of Engineering and Technology | 2022–2026 | Dindigul, Tamil Nadu
- **Higher Secondary Certificate**
SHRI RAMANA VIKASS HR. SEC. SCHOOL | 2020 – 2022 | Cholapuram – Sivagangai
- **Secondary School Leaving Certificate**
VELAMMAL MATRIC. HR. SEC. SCHOOL | 2018 – 2020 | Thirupuvanam – Sivagangai

CORE COMPETENCIES

- Full Stack Development
- Backend Development
- REST API Development
- Frontend Development
- .NET Development
- Agile Development
- Problem Solving
- SQL Database Management
- Responsive Web Design
